**Township of Woodbridge
Creative Assets Inventory Survey Description
Support for Sustainable Jersey Certification Application**

This document provides a brief description of the survey that was developed by the staff of the Environmental Analysis and Communications (EAC) Group at Rutgers' Bloustein School of Planning and Public Policy to solicit information for Woodbridge Township's Creative Assets Inventory (CAI). The survey form is also attached.

The purpose of the survey was to collect information about what artists and arts-related organizations and businesses want included in cultural, historic and arts resource improvements being planned for the Township as part of a creative plan for the arts district that is intended to facilitate redevelopment. The survey also collected information to update the CAI that will be utilized as a resource for the community, as well as support to the Township's application to Sustainable Jersey for points under the Arts and Creative Culture Action.

The EAC Group utilized Qualtrics Survey Software, which is a dynamic yet user-friendly on-line software, to solicit input and collect information for the CAI. The survey was available in Spanish and English and took about 7 minutes to complete. It contained 47 questions, though 11 of the questions would only display depending on a prior response. For instance, if a survey respondent indicated that their artistic area was in the literary arts, then a subsequent question asked what literary arts medium they worked in (e.g., children's books, fiction, plays, poetry, etc.). In addition to information about the artists' mediums, the survey gathered information about artists' living and working needs. Questions were designed to help the Township understand what enhancements would be needed in a revitalized arts district to attract and support the artists it will depend upon for its success. The Township will use the information to not only address needs of artists and arts-related organizations, but to also understand and address gaps in its arts and cultural assets development plans.

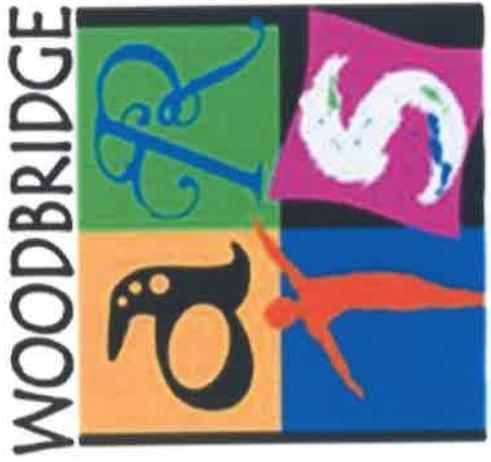

Survey questions were reviewed by the Mayor's Arts Advisory Committee prior to final approval of the survey. And, as Rutgers is a nationally-ranked research university and a

member of the Association of American Universities, it also secured Internal Review Board approval of the survey before its release.

The link to the survey was distributed directly to contacts on the CAI, and through the Township's community listserve. It was also posted on the Township's website, listed in their newsletter and was also promoted through flyers about the survey that were distributed at arts events in the Township during the summer.

The survey will remain open through early fall 2015 to solicit additional feedback and improve the quality of the CAI. The CAI is compiled in an Excel spreadsheet that allows users to sort on a potential 98 data points. The spreadsheet will be maintained under the guidance of the Woodbridge Township Mayor's office.

Are You a Woodbridge Creative Asset?

TAKE OUR SURVEY

Are you an artist...musician... singer... writer... or involved in the Arts in Woodbridge?

If so, Woodbridge wants to include YOU!!!

Mayor John E. McCormac

Knowing what our Town's "Creative Assets" are will help us better identify and explore our art community and discover what makes us distinct and sets us apart from the arts and artisans in neighboring communities.

To help us locate, define and identify our unique "Creative Assets," we engaged Rutgers' Bloustein School to assist us as we move to update our "Creative Assets" inventory – it's a crucial step toward building the Township's identity as a "Creative & Artistic" community.

By taking the survey, you will help us understand and address the needs of our arts community as we work to develop a "Creative Place-Making" plan for our newest arts community – the Avenel Arts Village. We are also engaged in developing a "Regional Access to the Arts Project" that includes a revitalized Main Street. Identifying the people, organizations, spaces, activities, and other assets in our community is a key component as we move to build a thriving arts community.

Default Question Block

Welcome to the Woodbridge Township Arts Inventory and Creative Placemaking Plan Survey

The purpose of this survey is to collect information about what artists working in the Township of Woodbridge want included in cultural, historic and arts resource improvements being planned for the Township as part of a creative plan for the arts district that is intended to facilitate redevelopment. The survey will also collect information to update a Creative Assets or Arts Inventory that will be utilized as a resource for the community as well as support the Township's application to Sustainable Jersey for points under the Arts and Creative Culture Action.

You are invited to participate in this survey that is being conducted by the Environmental Analysis and Communications Group of the Edward J. Bloustein School of Planning and Public Policy at Rutgers University. This study is funded by the Township of Woodbridge. The survey should take approximately five (5) minutes to complete.

If you choose to supply your contact information, we will include your contact information in an inventory that may be published on the Township's website and made available to the public as a resource for promoting arts programming and resource development. If you choose to provide your contact information, the survey will be confidential, meaning that we will not link the answers to the questions to your name. If you do not wish to be added to the inventory, you can still participate in the survey anonymously by not filling in the personal information section.

The project team, Institutional Review Board at Rutgers University, and the Woodbridge Arts Committee will be allowed to see the data. If a report using this information is published, only group results will be stated. All data will be kept for three years.

Participation in this survey is voluntary. You may choose not to participate, and you may withdraw at any time during the survey without any penalty to you. In addition, you may choose not to answer any questions with which you are not comfortable. There are no foreseeable risks to participation in this study. In addition, you may will no direct benefit from taking part in this study.

If you have any questions about the project or survey, you may contact: Sara Malone, Environmental Analysis and Communications Group, Bloustein School of Planning and Public Policy, 33 Livingston Ave. New Brunswick, NJ 08901, sjmalone@ejb.rutgers.edu, 848-932-2720.
