Mr. Flynn,

The police department currently has **250-residents** enrolled in the Safe and Sound program.

Any questions, feel free to contact me.

Respectfully,

Sgt. Daniel Perovic

Subject: RE: SJ - Vulnerable Population - Dispatch Data

Good afternoon, Sgt. Perovic:

The Township is currently working on our Sustainable Jersey (SJ) re-certification application. SJ is 501c3 that credits municipalities for actions within various realms of sustainability. The Sustainable Jersey Action titled: "Vulnerable Populations Identification for Emergencies" is an element that the township has previously been credited for in the past, and now is need of an update. The attached PDF highlight the manner by which we have garnered said credit. In discussions with IT, and based on the attachment, it has been determined that you might be the best person to help produce the number of folks registered within the safe and sound data base. Also, attached for reference is the SJ action description.

Many thanks in advance for your help and support.

Best,
Tom

Subject: RE: SJ - Vulnerable Population - Dispatch Data

Good morning gentlemen,

Just wanted to circle back on this thread as we are inching closer to the first Sustainable Jersey (SJ) submittal in a few weeks. The attached items from 2018 show correspondences and items which garner SJ credit. Anything alike the attached metrics that you might be able to send over would be very much appreciated (also attached is SJ action description, in case it might help to read through it).

Thanks again!

Best,
Tom

Hi John,

Great. Thank you for the detailed information. I will reach out to the parties you mentioned, and ensure we secure the applicable SJ points.

Many thanks again.

Best,
Tom

Tom: IT manages the Code Red system (which is the system we use daily to reach our population with the COVID-19 updates.) The Office of Emergency Management (Pat Kenny) and IT (to some extent) manage the Vulnerable Population database. We maintain links on the web page for residents to sign-up for both systems. The Vulnerable Population database is only utilized during an extreme emergency when we have evacuations due to weather and/or power outages. Usually it occurs when the Governor has declared a State of Emergency and the WCC has been activated as a Evacuation Center.

Link to sign-on to Code Red... <https://public.coderedweb.com/CNE/en-US/BF1B894971FB>

Link to complete the Vulnerable Population form... <http://www.twp.woodbridge.nj.us/357/Emergency-Service-Registries>

You can touch base with Bryan Austin and/or Tim Casey on Code Red and Pat Kenny on Vulnerable population (Note that system relies on printing a pdf and/or obtaining a form from OEM or the Mayor's Office).

Subject: SJ - Vulnerable Population - Dispatch Data

Hi John,

Would it be okay for me to reach-out to Bryan Austin with regard to the Sustainable Jersey Action titled: "Vulnerable Populations Identification for Emergencies?"

The attached items from 2018 show correspondences with folks in IS, but I just wanted to ensure that it would be permitted to reach-out before doing so, since the data is a bit sensitive.

Thank you in advance for your help.

Best,

Tom
