

## It's all about Recycling Organics! It's Summer, the grass and plants are growing. It's time for GRASSCYCLING & COMPOSTING!

**Grasscycling** : Recycle your grass clippings by leaving them on your lawn.

- \* It saves time
- \* Adds nutrients to your lawn
- \* Reduces landfill waste

**Backyard Composting** : Recycle your organic kitchen and yard waste by creating a compost pile in your yard.

- \* It's a practical and convenient way to handle your organic waste

- \* It improves the soil quality
  - \* It puts nutrients back into the soil
  - \* Reduces landfill waste
- Food is Energy, let's not waste it!

Check Our Website to Learn More!

**Woodbridge Township Schools are now recycling their food waste!**

- \* Students are now able to recycle all of the food they do not eat
- \* The food waste is collected from the schools and sent to a facility where the food is used to create biogas and renewable energy.
- \* On average 2,000 lbs of food waste is collected daily from our schools
- \* This creates enough energy to power 8-10 homes for a day!

**Sustainable Energy!**
