Resolution #2020-0116

Establishing Public Parking Spaces for Charging of Electric Vehicles in Municipal Parking Lots

WHEREAS, the Township is committed to improving municipal operations with “Green” initiatives which are economically and environmentally sound; and

WHEREAS, the Township has purchased and installed Level 2 charging station equipment for employee and the public use; and

WHEREAS, the Township has identified public parking spaces as a charging station are parking spaces that are fitted with charging station equipment which are exclusively used for the purpose of delivering electrical energy from the charging station to the electric vehicle; and

WHEREAS, parking spaces with charging stations for plug-in electric vehicles (PEV) are available on a first come, first serve basis; and

WHEREAS, when a charge is complete, users must promptly move their vehicles to allow other individuals to use the charging stations; and

WHEREAS, pavement markings painted on the surface of a parking space and signage identifying parking spaces as charging stations are provided to identify such spaces; and

WHEREAS, the Township will annually check charging receptacles to ensure that the devices are working and capable of safe operation; and

WHEREAS, the following fees shall apply for use of electric vehicle charging equipment:

1. Up to three hours of charging: \$1.50 per hour
2. More than three hours: \$2.00 per hour

THEREFORE, BE IT RESOLVED, by the Township Committee of the Township of Bernards, that public parking spaces identified for the charging of electric vehicles in municipal parking lots be established, including the above stated applicable fees.
