Re: Electric Vehicle Charging Stations

Bernards Township installed the first of 2 CHARGEPOINT Level 2 Dual Port Electric Vehicles Charging Stations in 2019 and the second one was installed in 2020. The charging stations are located at the Department of Public Works/Engineering building and the Townhall building and are available to the public,

The charging stations are listed on CHARGEPOINT- a publicly accessible directory system and on the townships website. The charging stations are municipally owned and in part were funded by "It Pay\$ to Plug in Grant" and the "Clean Fleet Electric Vehicle Incentive Program".

There is proper signage that designates the parking spaces near the charging stations are for electric vehicle charging only. The fees are \$1.50 an hour for the 1st 3 hours and \$2.00 an hour after that.

Sincerely,

Pat Monaco
