

Monofilament — Sewaren Boat Launch

Monofilament — Sewaren Municipal Marina

The Township's DPW collects the line from the PVC containers monthly and sends the line to Middlesex County for recycling processes to take place utilizing programs like, Reel In and Recycle with grants from the National Fish and Wildlife Foundation (NFWF) and the NOAA's Marine Debris Program.

Tonnage was minimal in 2021 (and typically is yearly) — only about a pound or two. However, this specific endeavor is not heavily weighted based on pounds. In this instance, the merit is about keeping the product out of the environment and recycling what is collected, and our Township team is proud to do so.

Monofilament — Removed from collection station

America Recycles Day - Outreach Table

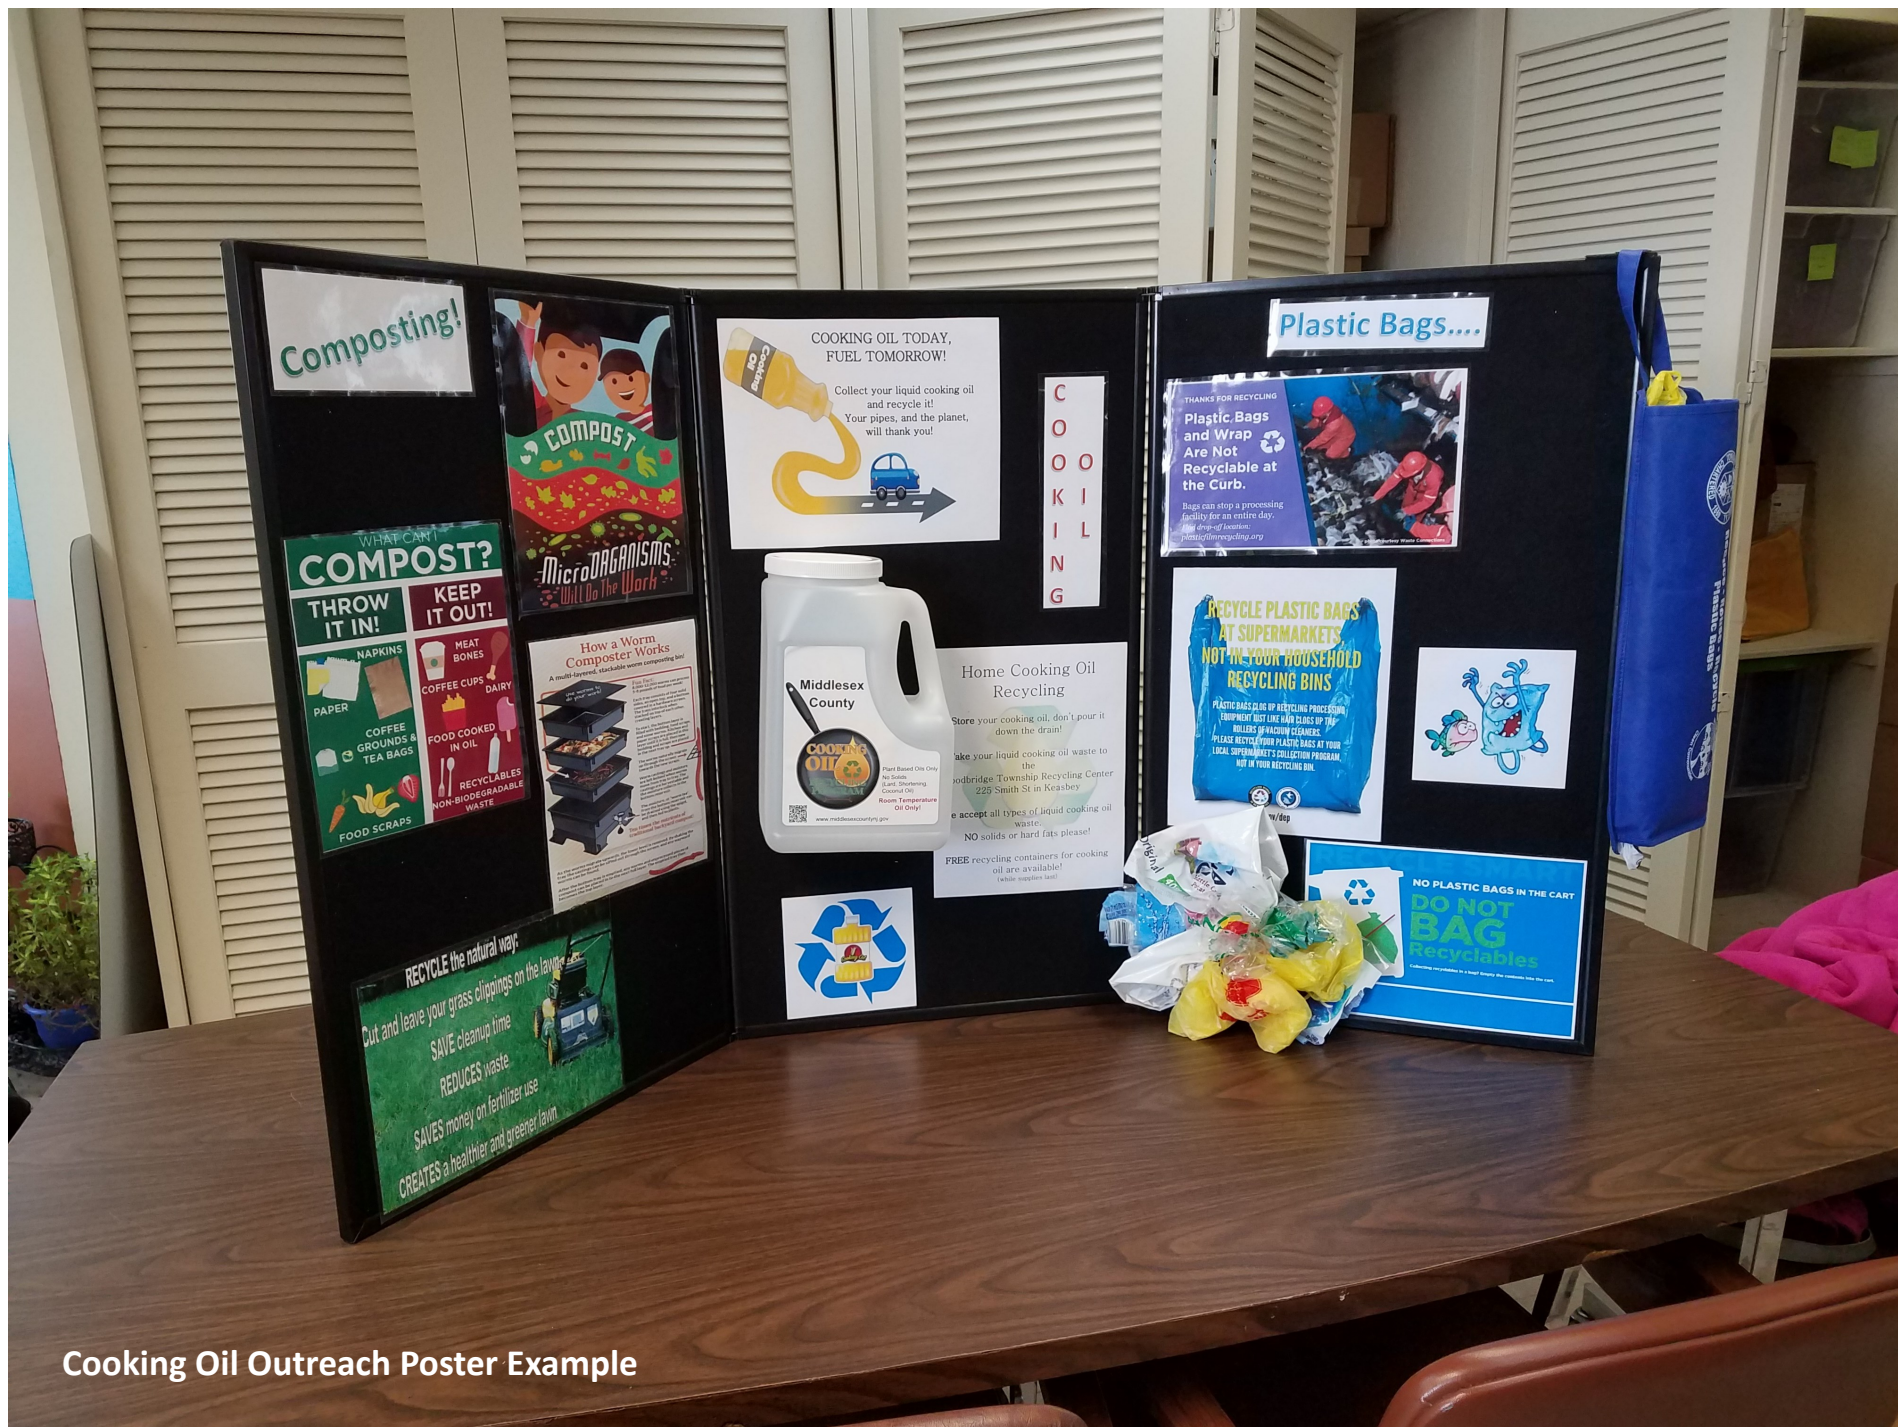

The Township uses the Oilmatic to recycle cooking oil.

We advertise in our Newsletter and Calendar (see attached) <http://www.oilmatic.com/>

Woodbridge recycled 1.62 tons of cooking oil in 2021.

Berkley Recycling

1900 18th Street

Spirit Lake, Iowa 51360

Berkley makes Fish-Hab structures, underwater habitats, out of recycled fishing line, line spools, milk cartons, and soft drink bottles, for fish and to encourage plant growth to promote a healthy fish population.

Places with recycle bin:

- Morgan Marina, South Amboy, NJ
- Sewaren Boat Launch in Sewaren
- Woodbridge Municipal Marina

COOKING OIL TODAY, FUEL TOMORROW!

**Collect your liquid cooking oil
and recycle it!**

**Your pipes, and the planet,
will thank you!**

Cooking Oil Today, Fuel Tomorrow

Collect your liquid cooking oil and recycle it. Your pipes, and the planet, will thank you.

It's easy to do your part

Hang on to your used liquid cooking oil. Allow it to cool, pour it into a container with a lid and bring it to a **drop off location**. We recommend holding onto the container it came in for this purpose.

Here are some additional tips for handling F.O.G.

- For larger amounts of grease or animal fat (ie the stuff that solidifies at room temperature), allow it to cool and pour it into a plastic container with a lid. We store ours under the sink until it's full, then we place it in the trash.
- When cleaning up, scrape leftover food into the trash, don't send it down the sink. Saves water and prevents trace fats from clogging your pipes.
- After allowing pans to cool, wipe them out with a rag or paper towel before you wash them to remove excess fat and oil.

Collect your liquid cooking oil and recycle it. Your pipes, and the planet, will thank you.

Home Cooking Oil

Disposal

Store your oil, don't pour it down the drain

Pouring fats, oils and grease down the drain clogs pipes and costs time and money.

Take your liquid waste cooking oil to the
Woodbridge Township Recycling Center

At

225 Smith Street in Keasbey

We accept all types of liquid waste cooking oil.

NO solids or hard fats please.

Questions, please call the Recycling Office at 732-738-1311 x3035
