

I Pledge to Reduce My Carbon Footprint

I pledge to do one of the following to reduce my carbon footprint:

- *Learn about cost saving programs for purchasing or leasing electric vehicles;*
 - *Schedule an electric vehicle test drive at a local dealership;*
 - *Choose zero-emission or fuel-efficient transportation if possible.*

Name

Date

Email (optional)

My actions have an incredible impact on our local and global environment. Therefore, I pledge to learn about cost saving programs for purchasing or leasing electric vehicles, schedule an electric vehicle test drive at a local dealership, or choose zero-emission or fuel-efficient transportation if possible. Local campaigns like “I Pledge to Reduce My Carbon Footprint” strengthen electric vehicle initiatives that address air pollution and support zero-emission transportation.

Sincerely,

Mayor, John E. McCormac

August Spotlight On Rechargeable Batteries Avoid the Spark!

Prevent fires, keep people and property safe!

DO NOT throw rechargeable batteries in the trash or recycling bin.

ALL rechargeable batteries can and should be recycled when they reach their end-of-life. Be battery safety smart!

anjr.com

Find a battery drop-off location near you:
Call2recycle.org/locator or bring your rechargeable batteries to the Recycling Center in Keasbey!

Electric Vehicles and Charging Stations

Woodbridge will be an even **'GREENER'** place this year!

Be on the lookout....

Zero emission electric vehicles (trucks & shuttle buses) are making their way into Woodbridge!

A grant from the NJDEP for \$2,491,880 allowed Woodbridge to purchase 3 electric garbage trucks and 2 electric shuttle buses. These zero emission vehicles will be a clean and welcome addition to the fleet.

The Downtown Electric Shuttle.....

Two electric shuttle buses will be part of this proposed project. These shuttles will be used in an 18 mile loop that will connect redevelopment sites with transit sites in MetroPark and Woodbridge.

If you have an electric vehicle.....

Look for our 3 new charging stations in downtown Woodbridge. One will be on Eleanor St and two will be in the New St parking Lot.

Used gum is the trickiest type of litter to tackle! If we don't remove it, it will stay where it is forever. The cost to remove it is 50 times the amount it costs to buy it! Put your used gum in the trash can where it belongs!
